Meet your teacher!

Hello Everyone! My name is Laura. I'm an Oxford University graduate and a current preschool and primary teacher in Bogotá. Before moving to England to complete an undergraduate and a master's degree, I graduated from Saint George School in Bogotá (and have loved education ever since).

During my time in the UK, I gained extensive teaching experience and developed learning methods that have allowed my students to succeed in all of their classes. I have been applying these same methods in Colombia and have loved getting to know all my students.

Because of this, I have decided to use my 2021 summer holidays to open an online English course so that your kids can make the best use of their time (while having fun). If you think this programme might be for you or your loved ones, feel free to ask for additional information (+57 3162943629).

All the best,
Laura

Payment Methods and steps forward

Dear Parents,

Please receive our warmest greetings. Once you decide to start this journey with us, our team will send you a “welcome package” and a financial statement showing the fees and additional charges (if applicable) that you will need to pay before the course starts. You will also receive a reference number that will be needed once you start paying your fees for financial and contact matters.

To secure your place we recommend you contact us as soon as possible. Unfortunately, our places are limited and we close subscriptions on the 20th of June 2021. With regards to payment methods, you can either make a one-time payment or pay in instalments (small portions throughout a fixed period of time). If you choose our second option, you should pay at least 50% before the course starts. The other instalments can be arranged with us privately.

Notes:

- To help us with social distancing please pay by bank transfer.
- If you made part of your payment already, please get in touch and we will confirm receipt and remaining amount to pay.
- Details for our account details are shown below.
